

SD-WAN Promotion for Windstream Agents

\$25 one-time SPIFF
for each new SD-WAN or
WDB line of service

Secure, reliable, scalable and affordable connectivity for retail and branch office locations.

As services continue to migrate to the cloud, corporate networks need to remain agile and flexible to be able to meet the demanding needs of their customers. However, traditional network deployments or updates are often expensive, complex, and slow to deploy. Windstream now offers fully managed SD-WAN solutions that reduce costs, minimize complexity, improve network reliability, maximize flexibility, and can be deployed in days in weeks or months. Our fully managed SD-WAN connectivity solutions help ensure your customers stay connected, secure, and under control, protecting your business, your customers, and your bottom line.

Earn a \$25 one-time SPIFF on top of your monthly recurring commissions!

MACH Networks is pleased to offer Agents a one-time \$25 SPIFF for each new SD-WAN or Wireless Data Backup product ordered with an AT&T 4G LTE service plan. Sell 1,000 SD-WAN or WDB connections, earn \$25,000 in upfront commission – *it's that simple!*

This offer is valid on 10 or more lines of service and SPIFF will be paid by MACH Networks directly to Windstream Agent on all registered deals within 45 days of the 4G LTE activation date.
